Past President*

Meeting Report

FSMB Workgroup: Education on Medical Regulation Roadmap for Content Development & Implementation

The FSMB Workgroup for Education on Medical Regulation Roadmap for Content Development and Implementation meeting was held September 28, 2015 in Washington, DC. This workgroup is chaired by Pat King, MD, and includes AAOE Fellows Ronald Burns, DO, Scott Steingard, DO and Tim Kowalski, DO and me. The charge of this workgroup is to develop a pre-professional curriculum on medical regulation for medical students and residents.

The workgroup discussed the need for the content developed to fit into the continuum of medical education, appropriate placement within the training curriculum, and alignment with the needs and or priorities of the medical school and residency program. The content should include:

1. The role of state medical boards
2. Licensing process
3. Disciplinary process
4. Reasons physicians get in trouble
5. Impairment

A number of delivery methods were discussed, as was potential collaboration with the American Medical Student Organization, Student Osteopathic Medical Association, the Council on Osteopathic Student Government Presidents and others.

This workgroup held a follow-up conference call on January 6, 2016. The purpose of this conference call was to further discuss the content and implementation into the learning curriculum. The workgroup decided to develop smaller subgroups to tackle each issue.

Respectfully,

Anna Hayden DO
